

Disasters are our business.
Veterans are our *passion*.

Team Rubicon Global gives military veterans around the world the opportunity to continue to serve.

As veterans return to their communities after the wars of the past decade, veteran reintegration poses a challenge in dozens of countries around the world. Most countries lack the veteran service opportunities and support networks necessary to fully reintegrate their veteran community.

Team Rubicon unites the skills and experiences of military veterans with first responders to rapidly deploy emergency response teams.

Whether the need is for medical triage, incident management, or debris clearing, veterans have a unique set of skills that makes them ideal candidates as first-on-the-ground responders. Veterans can organize, train, equip, and deploy efficiently.

MAKING AN IMPACT

...on Veterans

A Sense of Purpose // Team Rubicon offers a unique opportunity to be part of humanitarian efforts with a unified purpose, mission, and intensity that is reminiscent of military experience.

Part of a Community // The team-based model gives veterans the opportunity to be part of a larger community with a shared vision, creating a familiar sense of belonging and comradeship.

A Feeling of Identity // Veterans strengthen their sense-of-self by proudly identifying with Team Rubicon through the meaningful contributions they make on disaster-affected communities.

...on Communities

Over 215 missions rebuilding communities from disasters that range from hurricanes, to tornadoes, to floods, to earthquakes.

Over 60,000 members committed to serve.

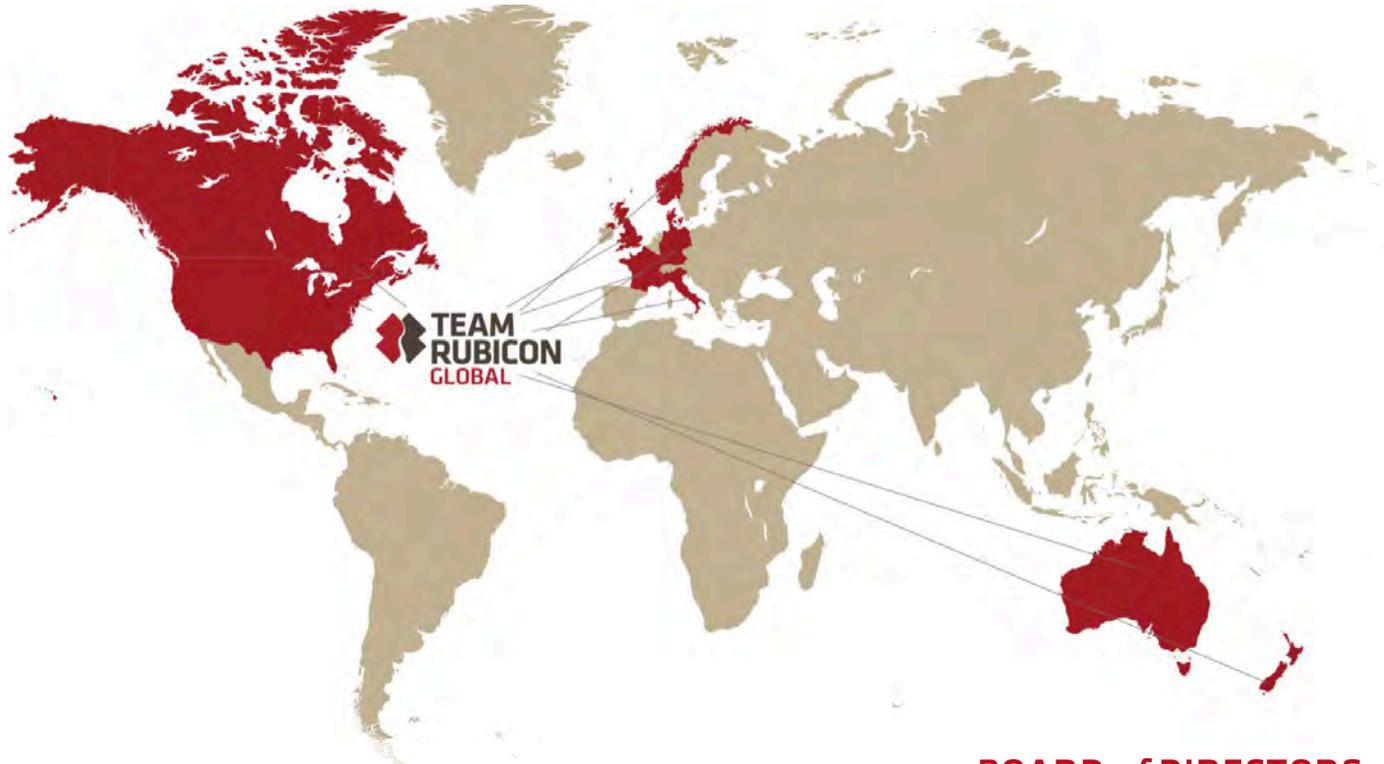

Tens of thousands of lives affected in communities around the globe.

Answering the Global Challenge

As the frequency and severity of natural disasters increase, veterans from countries around the world are lining up to serve as part of Team Rubicon. When disaster hits, there is an immediate need for a well-trained, prepared, and coordinated network of first responders. Proven in its model to leverage veterans' skills and training, Team Rubicon is positioned to grow its global network.

Going Global // Building on its success to date in the U.S., **Team Rubicon Global** is partnering with global companies to grow and scale the organization's capacity with veterans worldwide. TRG incubates, launches, and supports Team Rubicon organizations in countries around the world. It coordinates international operations, maintains strategic international relationships, and manages the Team Rubicon brand.

FIVE YEAR VISION

Team Rubicon Global's substantiated organizational design and corresponding funding needs will allow it to increase its ability to rapidly respond to global disasters while growing the bond and sense of purpose sought by military veterans.

The successful launch of Team Rubicons in the United Kingdom and Australia validates our model. With the guidance of our five-year strategic plan, we are well positioned to expand our mission to serve veterans and communities throughout the globe.
